

INDUCTII SQUAD

UNATTUNED RECRUITS

LEGIONES ASTARTES • THOUSAND SONS • TRAITOR

Every Inductii will either manifest the gift or won't — and until Prospero's tests decide which, they fight in the ranks anyway, half-hoping the sorcerers overhead are watching out for them.

Designer's Note. Built from the real HH3e digitized "Inductii" profile (`Thousand Sons.json`) — the same cheap horde-tier recruit unit built for the Sons of Horus roster, but with a genuinely different real special-power text: Thousand Sons Inductii carry the "Unattuned" Trait and a real psychic power, "Ætheric Guidance" (improves the ranged effectiveness of the unit when a nearby Thousand Sons model manifests it on their behalf) — reflecting that even the not-yet-tested recruits of this Legion fight under a sorcerer's watch. Priced identically to the Sons of Horus version (90/170pts for 10/20) since the real base stat line and points are structurally the same across both Legions' Inductii entries. Ætheric Guidance is translated as a Hit-re-roll buff conditional on proximity to a friendly Psyker unit, rather than the real Manifestation-Check-gated version, consistent with how every other psychic-power-driven rule on this roster was simplified.
