

KNIGHT COMMANDER PASK

TANK ACE OF THE CADIAN 423RD

ASTRA MILITARUM • CADIAN • IMPERIUM

*Knight Commander Antaro Pask is the Astra Militarum's most decorated tank commander, having served with the Cadian 423rd Armoured aboard Hand of Steel. Stats marked * below — Pask uses the host Leman Russ's own profile; he is not a separate model.*

HOST VEHICLE

Embedded Commander

Knight Commander Pask is not a separate model. He is added to one friendly Leman Russ tank in your army at the start of the battle as its commander, for an additional +45 points. While Pask is commanding that Leman Russ, that tank gains the KNIGHT COMMANDER PASK keyword and EPIC HERO keyword. You may include 0-1 Knight Commander Pask per army. The host Leman Russ uses its own datasheet for stats and weapons; the abilities below modify that profile.

ABILITIES (GRANTED TO HOST LEMAN RUSS)

Tank Ace

Each time the host Leman Russ makes a ranged attack, improve its Ballistic Skill characteristic by 1 (to a maximum of 2+). In addition, you can re-roll one Wound roll each time it is selected to shoot.

Hand of Steel

The host Leman Russ has the Lone Operative ability while it is below Half-strength (i.e., reduced to its damaged stat-line bracket). It also gains Feel No Pain 6+ against ranged attacks while at full Wounds.

Master of All Variants

Each time the host Leman Russ makes a ranged attack with its main turret weapon (battle cannon, demolisher cannon, executioner plasma cannon, exterminator autocannon, vanquisher cannon, punisher gatling cannon, or eradicator nova cannon), that weapon gains the [SUSTAINED HITS 1] ability.

Coordinated Strike [AURA]

While a friendly Astra Militarum Leman Russ unit is within 12" of the host Leman Russ, that unit can be selected to shoot in a turn in which it Advanced (treating its weapons as Heavy for the purpose of the Heavy keyword's bonus). This represents Pask's combat instincts being shared by his accompanying tank platoon.

Keywords (granted to host Leman Russ in addition to its own): CHARACTER, EPIC HERO, OFFICER, TANK COMMANDER, CADIAN, IMPERIUM, ASTRA MILITARUM, KNIGHT COMMANDER PASK

Designer's Note. The 8th Ed datasheet was a full Leman Russ profile with Pask grafted in (BS3+ on all variants, Knight Commander order ability). The 9th Ed treatment was an upgrade character that you "added" to a Leman Russ. This homebrew preserves the 9th Ed model: a +45 pts upgrade that gives any Leman Russ in your army Pask's BS bonus, re-roll, Sustained Hits, and Coordinated Strike aura. Use this card alongside any Leman Russ datasheet from the current 11e codex. **11th-edition verification, 2026-08-30:** checked current 11e BSData directly — no match for "Pask" or "Tank Commander" anywhere; the Tank Commander upgrade concept itself no longer exists in the current codex. Consistent with the Astra Militarum fully-gone findings from this project's Excel triage. No stat corrections possible; kept as-is from the prior 9e-based conversion pass.
